

For use within construction sites, and other applications where low voltage regulations apply. Manufactured with durable materials and so allowing for use within a rugged and harsh environment.

## Product Specification

- High strength die cast aluminium IP65 body and toughened glass cover.
- Yellow powder coated finish for body housing
- Polished aluminium reflector with dimpled finish
- 70W/150W – Asymmetric reflector
- 250W/400W – Symmetric reflector
- Metal halide lamps
- 110V 50Hz supply
- Fully adjustable metal stirrup for ease of installation
- Gland cable entry point
- Certified ingress protection to IP65

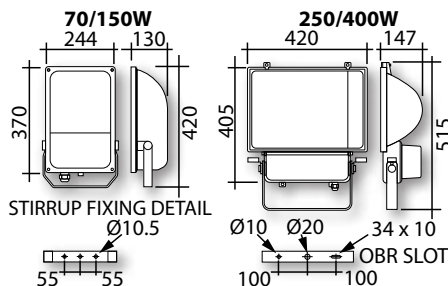

## Optional Features

- Can be switched by a Photocell

## Applications

- Construction sites
- Applications where 110V 50Hz supply is mandated

| Order Code | Watt | Description                                                 |
|------------|------|-------------------------------------------------------------|
| WFL70Q/LV  | 70   | HQI IP65 110V SITE FLOODLIGHT ASYMMETRIC REFLECTOR C/W LAMP |
| WFL150Q/LV | 150  | HQI IP65 110V SITE FLOODLIGHT ASYMMETRIC REFLECTOR C/W LAMP |
| WFL250Q/LV | 250  | HQI IP65 110V SITE FLOODLIGHT SYMMETRIC REFLECTOR C/W LAMP  |
| WFL400Q/LV | 400  | HQI IP65 110V SITE FLOODLIGHT SYMMETRIC REFLECTOR C/W LAMP  |

**SUPPLIED  
COMPLETE  
WITH LAMPS**

All dimensions shown are in millimetres
